Jody Rael
SunDog Solar
PO Box 348
Chatham, NY 12037

Dear Jody,

On behalf of SUNY Delhi, I would like to extend a sincere message of appreciation for SunDog Solar's support of our photovoltaic education program. We are excited to be able to provide quality instruction in this exciting field. We continually receive feedback from participants confirming the value of our program. Your donation of roof mounting materials for our mock roof not only provides participants with installation experience, but also allows us to highlight a proper installation.

I am sure you have heard it said that people are our greatest resource. That is exactly what we consider Brian Bean to be - a great resource! Brian has proven to be a very effective instructor bringing a realistic industry perspective to our training. Our participants have identified him as "very experienced", "well organized", "committed", "personable", and even "smokin"! We thank you for allowing him time to participate in our program.

Best regards,

A handwritten signature in blue ink that reads "Glenda V. Roberts".
